EMPLOYES' TIME TABLE No. 62

IN EFFECT
SUNDAY, JUNE 9, 1929,
AT 12:01 O'CLOCK A. M.

PACIFIC STANDARD TIME

Superseding Time Table No. 61, Dated January 6, 1929, and any Supplements thereto.

This Time Table is for the Government and Information of Employes of this Company only.

W. K. ETTER,
GENERAL MANAGER,
Los Angeles, Cal.

F. J. MacKIE
ASSISTANT GENERAL MANAGER
Los Angeles, Cal.

C. G. FLUHR,
SUPERINTENDENT,
Valley Division,
Fresno, Cal.

J. A. CHRISTIE,
SUPERINTENDENT,
San Francisco Terminal Division,
San Francisco, Cal.

P. W. DOANE,
H. H. TISDALE,
TRAINMASTERS,
Valley Division,
Fresno, Cal.

E. W. TERRY,
TRAINMASTER,
San Francisco Terminal Division,
Richmond, Cal.

V. J. IMHOFF,
CHIEF DISPATCHER

A. C. HARGIS,
ACTING NIGHT CHIEF DISPATCHER,
Fresno, Cal.

J. D. SUTHERLAND,
J. H. ZIESKE,
J. L. HARTZELL,
S. A. WYSONG,
H. HOLDER,
P. W. ARCHIBALD,
E. M. TAYLOR
O. C. HAUPTLI
DISPATCHERS, Fresno, Cal.

ALL DISTRICTS

1. A copy of the book entitled, "The Atchison, Topeka & Santa Fe Railway System Rules and Regulations of the Operating Department," dated 1927, and of the book, "Rules and Regulations for the Maintenance of Way and Structures," dated 1928, must be in the hands of all employes whose duties are in any way prescribed thereby.

2. Rule S-72: Except as otherwise provided, all eastward trains are superior to westward trains of the same class.

3. The number of tons shown by rate sheet as ordinary rating for engines is based on the maximum grade; but between points where grades and other conditions are favorable more cars can frequently be hauled, and conductors are required to fill out trains to car limit or to full capacity of their engines.

4. Rule 1 (B): Standard clocks are located at Bakersfield (Yard Office and Round House), Corcoran, Reedley, Calwa (Station and Round House), Fresno, Riverbank, Mormon, Richmond, Ferry Point, and Yard Office, China Basin.

5. Rule 5: At stations named below, schedule time and train orders apply at switch where opposing train enters siding.

First-class trains must not pass the point where traffic is received or discharged before time shown in schedule.

Tulare, siding west of depot.

Empire, siding west of depot.

6. Rule 88: At following stations the designated switches are "heading-in" points for trains which are required to take siding and train holding main track will remain clear until opposing train shall have cleared.

Corcoran (Eastward trains only), Crossover switch west of water tank.

Visalia (Westward trains), East switch to house track.

Hanford, the siding west of S. P. crossing.

Calwa, trains entering yard from Visalia district will use Eastward main track to first switch west of double-track junction.

Merced (Westward first-class trains only), Crossover switch east of depot.

Riverbank (Westward first-class trains only), Lead or siding switch opposite car repair shed.

Stockton (Westward trains), Crossover switch west of depot.

Glen Frazer; Westward trains taking siding will use the south siding and Eastward trains, the north siding.

Christie and Gateley; Westward trains taking siding will use the north siding and Eastward trains the south siding.

7. Rule 10 (A): Permanent slow boards are located 1500 feet in advance of curves, bridges, or other points where speed of trains is permanently restricted. Where two or more restricted areas are close together but one board will be used, it being understood that the speed indicated thereon applies until the "green" board is passed.

8. Rule 17: In addition to the provisions thereof, trains on siding at night must not display headlight until rear of train on the main track has passed.

Electric headlights must be dimmed:

(a) At meeting points by trains on main track after switch has been lined for opposing train to enter siding, as prescribed by Rule S-89 (A).

(b) Approaching another train in the act of receiving or discharging passengers.

(c) On double track as may be expedient, when trains are approaching from opposite direction.

9. Rule 82 (A): Bulletin boards and books are located at Bakersfield, Corcoran, Calwa, Ducor, Cutler, Reedley, Riverbank, Stockton, Antioch, Richmond, Ferry Point, Oakland, and San Francisco.

10. Rules 83 (A) and 343: At register stations, conductors must personally register their train, unless relieved therefrom by Form T train order, except as provided below.

At Bakersfield, a Southern Pacific register will be maintained by the operators which will contain the same information indicated on the register at Kern Jct. and will be used to comply with S. P. Rule 83-C, but must not be used for registration.

At Oil Junction, No. 10 may register by Form 903 and need not check register.

At Corcoran, first-class trains; except those originating and terminating, may register by Form 903 and need not check register.

At Calwa, Nos. 2, 9, 10, 22, and 32 may register by Form 903 and need not check register.

At Fresno, Corcoran, Visalia, Cutler, and Stockton, extra trains (except those originating and terminating) need not register, but will check register for opposing trains, unless such trains have been met on single track or their arrival indicated on register previously checked.

At Richmond first-class trains may register by Form 903, but must check register against opposing superior trains unless given Form "T" train order.

11. Rule 86 is amended as follows: Within automatic block signal territory, except when signals are inoperative, an inferior train must clear a first-class train, or a superior train created by Example (3) of Form G train order, in the same direction, not less than five minutes and must clear the block sufficiently to prevent delay.

12. Rule 93: Yard limits are located at Kern Junction-Bakersfield-Landco-Oil Junction; Oil Junction-Oil City; Lindsay, Porterville, Corcoran, Hanford, Visalia, Cutler-Wyeth; Reedley, Piedra, Calwa-Fresno-Hammond; Merced, Riverbank-Oakdale; Stockton-Mormon; Antioch, Pittsburg, Bay Point, Richmond-Ferry Point; and Oakland.

Rule 711: At following stations, between limits described, all trains and engines will move governed by automatic and/or interlocking signals, whose indications are superior to class and direction:

Kern Junction-Bakersfield-Landco-Oil Junction: Between Kern Junction tower, Signal 8894 west of Landco on First District and Oil Junction on the Porterville District.

At Bakersfield, westward extra trains may accept hand signal from Yardmaster or his Assistant to cross over and enter yard, but signal must not be given unless movement protected against eastward first-class trains.

Calwa-Fresno-Hammond: Between Signal No. 9931 east of Calwa, Signal No. 681 on the Visalia District and Signal No. 10002 at west end of Hammond.

Richmond-Ferry Point: Between Signal 11881 at east end of Richmond yard Third District, Signal No. 12 on Oakland District, and Ferry Point.

Westward trains finding Signal 11881 in "Stop" position must stop and may at once proceed at restricted speed. This modifies Rule 830 (a).

13. Rule 97: Extra trains, the conductors and enginemen of which have been furnished clearance card, Form 902, numbered and OK'd by the train dispatcher and orders designated thereon, are authorized to move with the current of traffic on double track from a district terminal to a district terminal or from an intermediate station to a district terminal without Form G train order, but if provision has been made for the use of a section of double track as single track no extra train may move over such section in either direction without having an order Form G. A Form G order will be required for all short movements between intermediate stations.

14. Rule 103: In addition to the provisions thereof, cars must not be cut off upon grades depending upon air or hand brakes to hold them, but must be placed with the engine.

15. Rule 210: In addition to the provisions thereof, no train will leave its initial station on any District, except westward trains at Kern Jct. and where the office is closed or not maintained, without receiving clearance card, Form 902, numbered and OK'd by the train dispatcher.

Bakersfield is the initial station for all trains departing on First District.

No train will leave Richmond, Oil Junction, or Ducor (except when operator not on duty), (except Nos. 37, 45, 47, 49, 21, 41, 9, 5, 321, 341, 309, and 305 at Richmond), without receiving clearance card.

At Fresno, first-class trains must get clearance, Form 902, other than first-class trains will not be required to get clearance. All trains must secure clearance card, Form 902, before passing Fresno tower when enroute to Fresno interurban district.

At Calwa, Nos. 2, 9, 10, 22, and 32 need not get clearance card, Form 902, if train order signal indicates clear.

16. Rule 221: The second paragraph abrogated.

Rule 221 (A) applies only to trains taking siding at stations where the train order signal is located between the siding switches.

17. The use of retainers on trains descending grades will be left to the judgment of conductors and enginemen.

When retainers are used on a freight train, speed of such train must not exceed twenty miles per hour.

18. Rule 310: Following is list of structures:

Mile Post	Location	Description
1096.7	Bridge A-1097	Truss Bridge
1166.4	Bridge Ab-1167	S. P. Bridge
1166.5	Bridge Ac-1167	Highway Bridge
1169.3	Bridge Ba-1170	Highway Bridge
1170.2	Between Vine Hill and Muir	Tunnel No. 1
1171.0	Between Muir and Glen Frazer	Tunnel No. 2
1173.6	Between Glen Frazer and Christie	Tunnel No. 3
1181.0	Between Herpoco and Pinole	Tunnel No. 4
1190.5	Between Richmond Ave. and Ferry Point	Tunnel No. 5

19. Rule 314: No freight train will run more than fifty miles without stop for inspection.

20. Rule 356:

California: Civil Code, Section 2188, provides—

"A passenger who refuses to pay his fare or conform to any lawful regulations of the carrier may be ejected from the vehicle by the carrier. But this must be done with as little violence as possible, and at any usual stopping place or near some dwelling house."

Section 487 provides—

"If any passenger refuses to pay his fare or to exhibit or surrender his ticket when respectfully requested so to do, the conductor and employes of the corporation may put him and his baggage out of the cars, using no unnecessary force, at any usual stopping place, or near any dwelling house, on stopping the train."

21. . . . .

22. Rule 391: Standard thermometers are located at Oakland, Richmond, Stockton, Riverbank, Fresno, Calwa, Corcoran, and Bakersfield. Conductors of trains having perishable freight will be governed by instructions contained in SFRD circular 2-I supplements thereto, and special bulletins with respect to handling ventilators.

23. The speed of passenger trains will ordinarily be that prescribed in the schedule; but in cases of delay, requiring greater speed in order to make meeting points, or to secure connections, the speed may be so moderately increased above that prescribed in the schedule as, in the judgment of the conductor and engineman in charge of the train, may be safe and prudent, due consideration being always given to condition of track and all the circumstances.

Enginemen of trains in which are dining or cafe cars will, during meal hours, regulate speed and manipulate air, rounding curves and making station stops so that train will move smoothly, without jar and train conductors must observe that this is done.

Maximum speed of passenger trains, thirty miles per hour, freight trains, twenty miles per hour over switches and frogs entering or leaving turnouts at double track junctions not otherwise restricted. Maximum speed of all trains entering or leaving all other turnouts and crossovers, ten miles per hour.

Trains moving against the current of traffic on double track will reduce speed to twenty (20) miles per hour around sharp curves and where view is obscure, and use whistle freely.

Trains handling wrecking derricks, steam shovels or pile-drivers, must not exceed twenty-four miles per hour (one mile in two minutes, 30 seconds) on any portion of the First, Second, Third, Porterville and Visalia Districts, and fifteen miles per hour (one mile in four minutes) on all other Districts.

Trains having dead engines in tow must observe the following speed:

If dead engine has rods down or disconnected with one pair of drivers "swung" or suspended off rail, 10 miles per hour (six minutes for each and every mile).

With rods down or disconnected but with all drivers on rail, 15 miles per hour (four minutes for each mile).

With all rods up and connected, 20 miles per hour (three minutes for each mile).

MAXIMUM SPEED FOR ENGINES IN MINUTES AND SECONDS PER MILE

CLASS	Service: Passenger Min.	Passenger Sec.	Freight and Mixed Min.	Freight and Mixed Sec.	Light Min.	Light Sec.
308–332	1	43	1	43	1	43
439–453	1	12	1	20	1	30
464–467	1	43	1	43	1	43
468–502	0	51	1	20	1	30

OAKLAND DISTRICT

No train or engine will exceed a speed of 15 miles per hour through corporate limits of El Cerrito and Albany, and 20 miles per hour between the west corporate limits of Albany and San Pablo Avenue, Oakland. Whistle will be reasonably and moderately used, but unnecessary use will be avoided. Engine bell must ring continuously within these limits.

ALL DISTRICTS

Over interlocked crossings not otherwise restricted reduce speed to forty (40) miles per hour.

24. . . . .

25. Rule 701: Red or purple lights may be used in Dwarf signals to indicate "Stop."

26. **FLAG STOPS TO PICK UP REVENUE PASSENGERS**

Train	Stops	Passengers Destined
No. 2	Any station	East of Bakersfield
No. 22	Any station	East of Bakersfield

FLAG STOPS TO DISCHARGE REVENUE PASSENGERS

Train	Stops	Passengers From
No. 2	Any station east of Fresno	West of Fresno
No. 22	Any station between Fresno and Bakersfield	Fresno and West Thereof
No. 22	At Escalon	San Francisco, Oakland, Berkeley or Richmond
No. 5	Any station west of Cutler	East of Fresno
No. 9	Any station	East of Bakersfield
No. 21	Any station	East of Bakersfield

27. Rule 830: Automatic signals between Kern Junction and Ferry Point, and between Landco and Oil Junction.

Trains holding main track at meeting points in this territory will not open switch for opposing train to enter siding until such train has entered the block.

28. Rule 460: Engine flues must not be sanded while passing dry grain fields, tule lands or other places where fire might result.

FIRST DISTRICT

29. Unnecessary use of steam whistle between Kern Junction and Oak Street, Bakersfield, prohibited except in case of fog or other unusual condition, when whistle may be reasonably and moderately used.

Use of whistle in making air tests Bakersfield yard will be omitted.

30. Double track between Kern Jct. and Bakersfield, be governed by Rule D-151.

31. Rules 701, 703, and 704. Kern Junction interlocker: Dwarf signal governing movement against current of traffic is a position light signal: two white lights in horizontal row indicate stop; two white lights at an angle of 45 degrees, upper right hand quadrant, indicate proceed at restricted speed; two white lights in a vertical row indicate proceed.

32. Rule 19. Between Kern Junction and Bakersfield and between Bakersfield and Oil Junction, trains to and from the joint track, in either direction may use markers showing green to the front and sides and red to rear, as prescribed by the Southern Pacific rules.

SECOND DISTRICT

33. Double track between Fresno and Calwa, be governed by Rule D-151.

At Calwa, 6th and 20th, 7:15 a.m. to 3:40 p.m.
At Calwa, 7th and 21st, 7:15 a.m. to 12:01 p.m.
At Reedley, 8th and 22nd, 7:50 a.m. to 9:00 a.m.
At Cutler, 8th and 22nd, 12:05 p.m. to 2:30 p.m.

When 2nd, 8th, 16th, or 22nd are Sunday, the remainder of Schedule will be one day later than shown above.

(Continued from Page 3)

VISALIA DISTRICT

34. Unless otherwise directed, extra trains between Calwa and Corcoran will run via First District.

PORTERVILLE DISTRICT

35. Southern Pacific time table and rules govern between Oil Jct. and Ducor.

THIRD DISTRICT AND SAN FRANCISCO TERMINAL

36. In addition to regular train signals, all trains, both day and night, will display each a lighted red and white hand lantern on rear of train between Maltby and Richmond and will also carry a lighted red and white lantern in cab of engine for convenient use in case of trouble.

37. All trains will use headlight through tunnel Number 3 between Glen Frazer and Christie.

38. Helper engines must not be detached from trains in tunnels.

39. Passenger trains backing between Richmond and Ferry Point will have brakeman stationed on the forward platform, provided with brake valve, air whistle and, in addition, at night, a white light.

40. Headlight on engines standing under train shed, Ferry Point, must be extinguished when steamers landing if reflection of same toward boat or slip.

41. In switching at Hercules powder plant, cars must not be "dropped" into any of the spurs but must be carefully shoved to spot or coupling.

In switching at Valley Spur, Muir, air must be coupled up and working, cars must not be "dropped" or "kicked."

42. At Sando: Westward train holding main track when meeting eastward train must not pass preliminary board until signal 11503 assumes "stop" position.

At Christie, eastward train holding main track when meeting westward train must not pass preliminary board until signal 11742 assumes stop position.

43. Double track between Richmond and Ferry Point, be governed by Rule D-151.

44. Numbers 40, 46, 48, and 50 on arrival Richmond Ave. will head through west leg of wye and proceed as Numbers 321, 341, 309, and 305, respectively, and will register in book provided for the purpose in box near Oakland District Connection with leg of wye.

JUNCTION SWITCHES

Normal position of junction switches will leave unbroken rail as follows:

Corcoran for First District
Laton for First District
Cutler for Visalia District
Reedley for Visalia District
Wyeth for Porterville District
Landco for First District
Minkler for Wahtoke District
Calwa for Westward trains from First District
Fresno for Eastward trains
Riverbank for Second and Third District trains
Richmond for Westward Third District trains
Richmond-Oakland District for Third District trains

Railroad Crossings at Grade and Interlockers.

Location	Tracks Governed	Rules	Whistle Signals Additional to Rule 820
